Winner of our 2009 show with his beautiful  
72 Chevy Chevelle and our ambassahound Kidnapper

Grey's Gypsy Star was adopted on July 24, 2009 to a loving family. She started rubbing her head a lot so she was taken to the Vet and was diagnosed with a tumor in her ear canal near her brain. It wasn't cancerous but her parents were told that if it wasn't removed it might turn cancerous. They were also advised that the best way to remove the tumor was with laser surgery which would cost over \$4,000. She was put on steroids to help shrink the tumor which worked very well.

To date, she doesn't need the surgery yet but we have been raising money through fundraisers to help pay for it. The funds have been put in trust and we are hoping to raise the last \$1,000 needed for the surgery so there will be no delay should the time come when she needs it.

This is just one of the ways that REGAP and their adopters and volunteers support each other. Please help us help other Greyhounds like Gypsy Star!

REGAP Of Illinois**

REGAP of Illinois, Inc. is an anti-race, non-profit rescue and adoption group. Our mission is to rescue retired racing greyhounds, find loving forever homes for them and to inform the public that adopting a retired racing greyhound is an excellent decision. We are a 100% volunteer 501c3 charitable organization. We rely on fundraisers and charitable contributions to shelter, feed and provide medical attention to our greyhounds until they reach their forever homes. Visit our Web Site at [www.regapgreyhounds.org](http://www.regapgreyhounds.org).
